

Feeling like a fish out of water?

We can help you make the right financial choices for Aged Care

When looking for residential aged care there's so much to consider and often so little time. It's not usually something you've planned for and most people feel like a fish out of water

ADELAIDE | BRISBANE | MELBOURNE | SYDNEY

Here are a few points to consider when entering into Aged Care

- How will the accommodation bond be funded?
- Do I have to sell my home, or are there other options?
- How much will the aged care fees be each month?
- How can my estate be best preserved so assets are not lost?
- What government benefits or subsidies am I entitled to and am I claiming my full allowance?
- How can I make my money last so I can afford care long term?

Aged Care Financial Services can help with these questions -

Our advisers are experienced and accredited specialists who can work with your family to assess all assets, income and any eligible subsidies. We will create a financial plan to ensure that care is affordable now and into the future.
